Ancestral Stone Massage

Ancient cultures around the world believe that our ancestors work through stones to support our healing journeys. This modern-day interpretation incorporates both hot and cold stones. Basalt stones are used for their thermodynamic qualities that maintain heat and transfer energy while marble stones remain cold resulting in a direct effect on the cardiovascular system and relaxation of the muscle tissue.

CBD Massage

Our CBD massage begins with a dry brush and hot compresses, to prepare the body to receive the healing benefits of the CBD oil. Then, using a combination of massage techniques and application of a high potency CBD salve, stress, anxiety, and muscle tension are relieved.
